

## Titaantsink sertifikaat Eestis

Koolitatud titaantsink paigaldajatele väljastatakse vastav sertifikaat, mille esitamine tööde tellijale ja järelevalvele annab õiguse titaantsink materjalide paigalduseks.

Juuli 2021 seisuga on Eestis 13 sertifikaati omava titaantsink materjalide paigaldajat.

VMZINC

### *Training certificate*

**MARGUS LAATS**

Between the dates 07.07.2020 – 08.08.2020, he participated in the theoretical and practical titanium zinc application training program, the subjects of which are given below (2 days)

**Practical & theoretical training topics:**

- Titanium zinc architectural usage areas (Roof-Facade and Interior architectural applications)
- Theoretical rain water system installation (suspended gutter, box gutters, rooftop gutter)
- Standard roof layer detail (warm roof, cold roof, ventilation)
- Standing seam basic rules (support, lengths, fix and sliding clips,)
- Roof details (valley, junctions, edges, ridges, hips, roof penetrations, eaves)
- Soldering
